

Door Closers – CLPKT Series Pocket Closer

The CLPKT Series (Dorma 8900 Series) is the preferred closer for hold-open pocketed applications. Used in combination with Syntégra’s DH Series wall mounted magnets, the CLPKT Series disappears from view when the doors are held open in the wall pocket. Certified to 10 million cycles, the CLPKT closer represents the latest in door control technology. Syntégra proudly supplies custom-configured Dorma closers with their integrated door systems.
