

## Protection Plates – KP / MP / AP Series

Syntégra door systems can be fitted with stainless steel protection plates to guard against carts, equipment, and other damaging objects moving through an opening. Syntégra pre-installs these plates to deliver a uniform application and to ensure compliance.

### Features

- Kick Plates, Mop Plates, and Armor Plates available
- 304 Stainless Steel
- 630 Finish - #4 satin
- 16ga (.050) Thickness
- Screw-free installation
- Typical width on push side of door is 2" Less
- Provides superior protection along with a decorative accent

Per NFPA 80 requirements, factory-installed protection plates shall be installed in accordance with the listing of the door. Labeling is not required where the top of the protection plate is not more than 16 in. (406 mm) above the bottom of the door.
